Harold H. Dorland 2/22/94

Dear Mrs. Weisberg, It was nice to see you again during the holidays. I don't think Harold believes me when I tell him he (1) saved our democracy; and (2) turned around the minds of over 200,000,000 people! This is an astonishing feat, & it puts him into the class of great Americans ~~who~~ such as Thomas Jefferson or Tom Paine.

I'm worried that that college will took his files etc. but not honor him the way it should. I'd like the Pres. to set up Harold's statue now next to the main street. Let's see if she does.

Best of wishes to you both. I really was killed the night of Feb. 9, & all my friends say it probably was the CIA. Who knows?
